EXTRAORDINARY

All Braveheart® cattle are raised here in Kansas. All feed yards are managed by the Little Apple's own Beef Marketing Group.

Braveheart Black Angus Beef is verified majority black-hide Angus, which is known for producing the best-tasting steaks.

Braveheart cattle are fed a corn-based, natural diet.

They are raised with a focus on health and humane treatment.

Through DNA technology, all Braveheart Black Angus beef is 100% traceable back to the individual animal at the feedyard.

In order to guarantee ultimate tenderness and delicious flavor, all Braveheart steaks are aged for a minimum of 21 days.
